A distressing situation.—What a dreadful thing it is to wake up in the middle of the night suffering from cholera, the nearest doctor a mile away and no one to send for him. Imagine a more distressing domestic situation, if you can, and you cases of this kind are very common. The trouble, however, would never have become serious if the man of the house had a bottle of Perry Davis' Pain Killer at hand, for it is a remedy that never fails to cure cholera, cramps, diarrhoea, or dysentery. All druggists keep it. 52c. for large New size.

We have on our desk the initial number of the Canadian Engineer, a bright monthly journal of 28 pages and cover devoted to the mechanical, mining and other branches of the engineering trades. It is thoroughly Canadian in tone, every article has a practical purpose, and it gives an immense amount of Canadian news of interest to the trades concerned. Its design and typographical appearance are not excelled by any trade paper yet issued in this country. Published by the Canadian Engineer Co., 66 Church St., Toronto, and the Fraser Building, Montreal at \$1 per year.

That amusing and lively publication, "Tales from Town Topics," is out again in a Midsummer Number, with a special \$1,000 prize novel, entitled, "Six Months in Hades," added to the usual collection of bright things reproduced from the old numbers of the New York society journal. The story is decidedly odd and fascinating in plot, and the short matter is selected with the especial view of adding to the gaiety of the summer season. "Tales from Town Topics" is just the sort of book that one likes to take on the shore end of a piazza, or down on the rocks by the shore during a quiet and lazy afternoon. It is a quick, clever and cunning production, and quite unique in the literature of the day.—Town Topics, 21 West Twenty-third street, New York.

There is every probability of the militia department at Ottawa giving up the Martin House, which is now in use among the various corps throughout the dominion into store, and have them converted into Martin-Houses; that is the first five or six Martin-Houses will be replaced by the Martin-Houses which will admit of an ordinary bed pencil. The distance is 25 miles in length and a tunnel of lead with a nickel covering, increasing the length of the barrel and the smallness of the hole will make the projectile less liable to fluctuation in the wind which causes great deterioration in the marksmanship. When the rifle is converted into this shape they will fire up to 4,000 yards with accuracy.

Destroyed by Fire and Again at Work.

The Price Baking Powder Company of Chicago, which is known throughout the country for the superior excellence of its Baking Powder, met with a serious loss on the morning of May 18th, in the nearly total destruction by fire of its factory and offices. No sooner had the flames been subdued than the work of restoration commenced, and the Company by prudent foresight, having had stored in outside warehouses duplicate machinery, labels and supplies of raw materials in preparation for any emergency was enabled by energetic management to resume manufacturing within a few days after the fire, thereby causing its customers but a trifling delay in the filling of their orders. Had the company not been so prepared the delay would have been very serious, since it would have required months of time to get new machinery.

It is now forty years since the goods manufactured by the Company were first placed on the market, to Dr. Price being due the distinction of having prepared the first can of Cream of Tartar Baking Powder ever manufactured in any country. It was a great discovery, superseding as it did the old method of using cream of tartar and soda separately, to say nothing of saleratus, with which the biscuit of early days was embittered.

The Price Company has no connection whatever with any other baking powder company or manufacturer, notwithstanding representations to the contrary made by other manufacturers whose sole aim is to deceive the public and borrow the good name and fame acquired by the Price Cream Baking Powder, which is known all over the world as the purest and "most perfect" made.

REDUCED TO A SCIENCE.

The treatment of disease is now reduced to a science. A scientific product of medical skill for the cure of all blood diseases from a common simple to the worst sore which has held popular esteem for years and increases steadily in favor is Burdock Blood Bitters. It proves its worth.

LORD KILCOURSIE SPEAKS.

We desire to call attention to the Great Winter Competition of 1893, which is now being conducted by the Canadian Agricultural and Home Journal, published at Peterborough, Canada. The Agriculturalist has gained a reputation in the past for fair dealing in connection with these competitions, and the future will be no exception of the rule. Those who care to compete can do so free of charge. All they have to do is to prepare a list of English words made from the letters in the two words, "Columbian Exposition." The rules are that no letter can be used oftener than it appears in the two words above named, or can the names of persons or places be used. Foreign words are also barred. The ruling prices are: 1st, \$2,000; 2nd, \$1,000; 3rd, \$500; 4th, \$250; 5th, \$100; besides prizes, organic, gold watches, 5,000 elegant silver tea services, etc., making a total of over 10,000 splendid prizes. All who send 100 correct words will receive a special prize. Take a few sheets of paper, prepare a list of words made up from the letters in the two words above named, and enclose \$1 for six months' subscription to one of the choicest and best published magazines of the continent, and you will have a real class magazine to read, and may secure \$25,000 in gold into the bargain. The Agriculturalist always carries out its promise to the victors, a fact known by Lord Kilcoursie, the Governor-General's Secretary, will testify.

Government House, Ottawa, Ont., Jan. 15th, 1893.

Sir, It will give me great pleasure to recommend my friends to enter your competition. I am, Sir,

Your obedient servant,

"KILCOURSIE, A.D.C."
